

S200 OIL GONE

**BIO REMEDIATES OIL AND FUEL
SPILLS ON LAND & WATER**

LITRES

S200 is a bioremediation accelerator that rapidly reduces hydrocarbons to water and carbon dioxide. S200 is effective on diesel, petrol, aviation fuel, kerosene, fuel oils #2 to #6, hydraulic oils, crude & lube oils. Ideal for both boat bilges, coastline and marina spills. Contains Butyl diglycol, urea, fatty acids, phosphate ester.

DIRECTIONS FOR USE

Apply S-200 Oil Gone in equal proportion to the oil spill On:

Water: Spray the entire oil sheen with S-200.

Land: Saturate by spraying the contaminated area. If the area is heavily contaminated, re-apply in 7 to 10 days.

Caution: Dilution significantly reduces product performance
