

triple⁷
stronger | safer | greener

Designed to Protect
our Precious Oceans
& Waterways

Triple7 Bio Concentrate offers a powerful, safe and effective oil separation action without the potential for serious resultant effects of clean-up operations to fragile marine eco-systems.

This bio-based oil/water separator can be used effectively on a wide range of oils including mineral oils, crudes, residual fuels, diesel, kerosene, white spirits and lubricants.

This product is as safe for people as it is for the environment. It has no HAZCHEM rating and requires no special storage, transport or handling procedures.
