# AMSA Mandated Practical Assessment Coxswain Grade 2 NC

Certificate I in Maritime Operations (Coxswain Grade 2 Near Coastal)

Candidate surname:

Candidate first name:

Candidate signature:

Date:

RTO name:

RTO number:

Vessel name(s):

## Candidate assessment result summary

The candidate has completed all components of the relevant Maritime Training Package, including this practical assessment, and has been deemed competent:

Assessor name and number:

Assessor signature:

Date:

Assessor comments:

## Candidate instructions:

1. Observe all legislative and workplace health and safety (WHS) / occupational health and safety (OHS) requirements and comply with vessel safety management system.
2. Observe all procedures as set out in the vessel's operating documents.
3. Complete the practical tasks below using vessel documentation as required.
4. While completing the practical tasks, answer all questions, as directed by the assessor.

## Assessor requirements:

Assessors of the AMPA must be approved by AMSA in accordance with the Administrative arrangements for the approval of registered training organisations as final assessors (AMSA 132).

## Vessel/assessment requirements:

The on water practical assessment must be carried out on board a vessel of  $\geq 5.0\text{m}$  in length that is appropriate to the certificate of competency being assessed and which is fitted and equipped to a standard sufficient to allow the candidate to complete the practical assessment tasks.

**Assessor instructions:**

Ensure the candidate's name, RTO details and vessel name(s) are recorded on the cover page of this AMPA prior to commencing the practical assessment.

The AMPA must be completed and signed off within 12 months of the date of the first assessment. The candidate will need to be reassessed with a new AMPA form should it not be completed in that time.

This AMPA is valid for submission to AMSA for the Coxswain Grade 2 Certificate of Competency for 12 months from the date signed on the cover page.

Each practical assessment task has a code adjacent to it that specifies the conditions under which the performance and assessment of each task must be carried out. The table below contains an explanation of the meaning of each of these codes.

<b>I</b>	Task is to be completed by each candidate individually
<b>G</b>	Task may be completed as a group activity with individual assessment. The group must contain no more than 5 candidates.
<b>V</b>	Task must be completed on a vessel that meets the requirements above while operating in navigable waters.
<b>W</b>	Task may be completed either in a workshop or on a vessel that meets the requirements specified above
<b>P</b>	Task must be completed in water (pool, or other safe water)
<b>F</b>	Task must be completed on a fire ground
<b>S</b>	Task may be completed on an approved simulator where realistic conditions are not feasible aboard a vessel (such as an absence of traffic or navigation marks)
<b>O</b>	Task may be completed by observation

Where no code is specified for a task this is at the discretion of the assessor.

The AMPA may be conducted throughout the training or after all training has been completed.

As each task is completed successfully the assessor must sign and date the AMPA in the appropriate column. Where a number of tasks are assessed by a single assessor on the same day these tasks may be bracketed together and signed off as a group.

Additional simulated exercises and oral questions may be used to provide further opportunity to clarify a point or for a candidate to demonstrate competence.

Once all tasks for a unit of competency have been completed successfully the assessor should complete the section below the tasks for that unit.

AMPA tasks may be signed off by different AMPA approved assessors from different RTOs. A partially completed AMPA brought to a second or subsequent RTO may be completed and the front cover page signed when all AMPA tasks have been completed, provided this occurs within 12 months of the date of the first assessment.

Once the practical tasks for all units of competency have been signed off the assessor who signs off the final unit should complete the Candidate assessment result summary on the cover page of this AMPA.

<b>Candidate name:</b>		
<b>Practical assessment tasks</b>		<b>Assessor Initials</b>
		<b>Date</b>
<b>Operate inboard and outboard motors</b>		
• apply work health and safety (WHS) / occupational health and safety (OHS) requirements and work practices	<b>I</b>	
• conduct pre-start checks, including: - fuel - lubricating oil - cooling system - motor attachment points - water depth	<b>IV</b>	
• conduct shutdown checks on inboard or outboard motors	<b>IV</b>	
• tag out and report faults	<b>GW</b>	
• estimate fuel consumption	<b>I</b>	
• read and interpret company standard operating procedures (SOPs) about operating inboard or outboard engines	<b>IW</b>	
• store inboard or outboard motors	<b>IW</b>	
• use inboard or outboard motors	<b>IW</b>

<b>Practical assessment tasks</b>		<b>Assessor Initials</b>	<b>Date</b>
<b>Apply basic survival skills in the event of vessel abandonment</b>			
• collect, manage and interpret information on the use of lifesaving equipment and procedures to be followed when order to abandon vessel is given	<b>I</b>		
• communicate effectively with other personnel and passengers during simulated abandon vessel musters and emergencies	<b>IV</b>		
• determine type and extent of emergency and appropriate survival action to be taken	<b>IV</b>		
• remain afloat without a life jacket for at least 5 minutes	<b>IP</b>		
• don a lifejacket in water	<b>IP</b>		
• ensure behaviour reflects statutory requirements pertaining to lifesaving appliances	<b>IP</b>		
• swim in a lifejacket for a minimum of 50 m	<b>IP</b>		
• tow with a life jacket for a minimum of 25 m	<b>IP</b>		
• maintain a group huddle for at least 10 minutes	<b>GP</b>		
• swim in a group conga line for a minimum of 50 m	<b>GP</b>		
• hold heat escape lessening posture for at least 5 Minutes	<b>IP</b>		
• operate radio equipment, including very high frequency (VHF) or high frequency (HF) radios	<b>IW</b>		
• operate and use orange smoke flares or red handheld flares	<b>G</b>		
• operate and use life buoys	<b>IP</b>		
• operate and use lifejacket or personal flotation devices	<b>IP</b>		
• read and interpret instructions on emergency procedures, safety management systems and plans	<b>I</b>		
• recognise and interpret muster signals appropriately for indicated emergency	<b>IV</b>

<b>Practical assessment tasks</b>		<b>Assessor Initials</b>
		<b>Date</b>
<b>Handle a vessel up to 12 metres</b>		
• anchor a vessel	<b>GV</b>	
• handle a disabled or partially disabled vessel	<b>I</b>	
• manoeuvre a vessel to berth and leave a berth	<b>IV</b>	
• manoeuvre a vessel to come to, and leave, a mooring	<b>IV</b>	
• manoeuvre a vessel to maintain a steady course	<b>IV</b>	
• manoeuvre a vessel to retrieve a person overboard	<b>IV</b>	
• steer astern	<b>IV</b>	
• undertake preparations for towing, including: - crew briefings that include the task at hand and risks to persons on both vessels - ensuring means of communication between the two vessels is available - ensuring tow ropes are in good condition and of adequate strength and length for the proposed tow - ensuring tow line is of sufficient length to minimise shock loading on tow-line - making tow fast to the towing vessel to ensure steerage can be maintained - making provision for rapid slipping of the tow in emergency situations - preparing messenger ropes for passing tow lines	<b>GV</b>	
• tow and be towed	<b>GV</b>	
• turn short around	<b>IV</b>	
• turn a vessel across the tide/wind	<b>GV</b>	
• maintain situational awareness	<b>IV</b>	
• use appropriate communication	<b>IV</b>
